Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That’s why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful – offering you a competitive edge that will open up a wealth of business opportunities.

Find out more at neopost.com

We’ve Got You Covered

Neopost customer support is there for you with our contact centre and trained technicians who are ready to assist you. We are dedicated to providing you with world class customer satisfaction and offer you automatic diagnostics with our product line. By uploading systems data, we will be alerted if you are having trouble. This remote access to your system allows us to analyze the situation remotely and then fix it accordingly.

Customers have also chosen the DS-75 with the IN-700 Series

By using a folder inserter, you eliminate manual folding and inserting of documents into envelopes. The DS-75 folder inserter is able to quickly and automatically process all standard mail management services as well as direct marketing applications.

We are ISO 9001, ISO 14001 and OHSAS 18001 certified and Neopost offers the highest process, quality, safety and environmental standards.

Join us on
The Innovative Mailing System

Now, more than ever, businesses need a reliable partner to help them streamline customer communications, a partner like Neopost. The IN-700 Series postage machine helps control costs and improve processes through superior performance and exceptional productivity.

Equipped with a high capacity mixed mail feeder, high speed dynamic scale, and intuitive full color touchscreen, the IN-700 Series improves postal processing, even in the most demanding business environments. With the IN-700 Series, you get access to a growing suite of services and apps to improve postal, parcel and related digital communications. Plus, all of this is delivered using an eco-design approach that reduces environmental effects at every stage.

Give the right impression

Enhance the look of your mail piece with a printed slogan. By adding a company logo, or a QR code, you can communicate and promote your business to your customers.

Combined with our new web-based accounting solution NeoStats, the IN-700 Series is the perfect solution for monitoring, tracking and controlling postal costs.

Manage your mail activity smoothly

NeoStats enables graphical monitoring (bar or pie chart) of postal activities with details per mail class, operator, department... Do you need a quick overview of your mailing activity over the last year? Just look at the main dashboard! Key reports are pre-defined; you can also export data for your additional analysis and reporting. You can easily print reports or send them by email. NeoStats is always accessible through the web using a login and password.

Achieve significant postage savings

The breakdown of your mail pieces & expenses, e.g. by mail class, will help you identify opportunities for postage savings. Is priority mail always a must? NeoStats will help you select the most appropriate rate to estimate how much your company can save. Moreover this solution enables you to identify peak periods at a glance, for better business planning.

The IN-700 Series is compliant with environmental Regulations*

*RoHs, WEEE, REACH

IN-700 Series
Performance and Productivity

Designing the Most Ecological Solutions

The IN-700 Series carries Neopost’s Eco-Label. This is proof of our commitment to making our products greener.

How We Reduce Our Environmental Footprint:

- We limit the weight of our machines and the amount of raw materials used for production.
- We keep the volume of our packaging* to a minimum and ensure it is 100% cardboard and recyclable.
- Packaging for the IN-700 Series represents less than 20% of the total weight of the packed product.
- Our user-friendly sleep mode helps reduce energy consumption**. And our remote support reduces time spent travelling by technicians.
- We develop our products to ensure a minimum recyclability rate of 75%.

* The volume of packaging/volume of product ratio is around 2:27
** 5.65W for the IN-700 Series, with a total energy consumption of 53 kWh per year

IN-700 Series Features

1. Mixed-Size Feeder
   - Productivity
   - Automatic mixed-size feeder adjusts to sort mail by size and thickness. Self-aligning rollers prevent jams or misprints.

2. Dynamic Scale
   - Accuracy
   - Shape-based pricing compliant dynamic scale automatically categorizes based on shape and weight, then accurately rates mail.

3. External Weighing Platform
   - Flexibility
   - You can handle large C4 envelopes with the 3 kg weighing platform or heavy parcels with the 35 kg scale. For any thick item, you can automatically produce a label. Add differential weighing to reduce manual processing and handling.

4. Full-Colour Touchscreen
   - Effortless
   - Enhance operations and minimize keystrokes with an easy-to-read color touch screen. Large, descriptive prompts and menu keys make navigation a breeze.

5. Peripheral
   - Time-Saving
   - Save time & eliminate errors using the barcode scanner for reading accounts and processing e-services.

6. High Speed Internet Connection
   - Connectivity
   - Get the latest rates, software updates, ink alerts & remote diagnostics fast & easy through high speed internet connection (LAN).
