Folder Inserter

Productive, Versatile and Intuitive
Productive, Versatile and Intuitive

Combined with our mail management software, the DS-75i is the perfect mail assembly solution.

The DS-75i combines unparalleled ease of use with advanced technology. With its compact footprint, large loading and unloading capabilities, and features such as CIS scanning technology, the DS-75i can process a wide variety of mailpieces for invoicing, monthly statements, direct marketing campaigns and many other applications.

Getting your mail folded and inserted has never been so simple. The intuitive color touch screen of the DS-75i prompts the operator through each step of the process. This scalable system is extraordinarily quiet and designed to fit perfectly into any work environment. With its WiFi and LAN embedded capabilities, it can be connected to your network to enable remote diagnostics and remote assistance to provide help when needed.

Visibility and Integrity

The optional AIMS-500 software extends DS-75i’s built-in document security to deliver complete end-to-end process verification. Its verification capability confirms every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Automated Document Preparation

Neopost’s optional Output Management Software (OMS) can add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.

OMS and AIMS, along with the folder inserter operating system, work seamlessly together to meet all your business’ critical communications requirements.

Business Impact

**Revenue Growth**
Accelerates document delivery time allowing for quicker customer response and improved cash flow.

**Customer Engagement**
Increases customer satisfaction by sending documents via the customer’s preferred delivery channel, while providing the ability to easily interact, store and retrieve documents.

**Risk Mitigation**
Ensures sensitive information is not compromised by providing document traceability and a secure portal powered by Microsoft Azure.

**Expense Control**
Reduces postage, preparation, equipment and material costs by allowing migration from traditional mail to digital delivery.
A State-of-the-Art Graphical User Interface

Designed for all users, the intuitive, full color, high-resolution 7” touch screen provides a wizard-based, user-friendly interface, making it easy for anyone to select and run their folding and inserting jobs.

And, see how easy it is to create a new job. Simply load your documents and envelopes and press the start button. The DS-75i will automatically measure the length of all loaded documents, as well as the envelope, in order to adjust all settings and process the appropriate mail items.

Smart Solutions to Maximize Flexibility

The exclusive FlexFeed® tray enables you to process many different document sizes. In combination with the unique semi-automatic envelope separation mechanism, this provides full flexibility for feeding a wide variety of document types.

Optimize Productivity with the MaxiFeeder Tray

Choose to load the MaxiFeeder with up to 325 BREs or load up to 1,200 sheets to maximize your productivity.
**Specifications**

- **Processing speed**: Up to 3,800/hour
- **Color touch screen**: Standard
- **Automatic settings**: Standard
- **Job memory**: 50
- **Feeder**: Up to 3
- **Hand feeding**: Standard
- **Multi-sheet feeding**: Standard
- **Cascade from feeders**: Standard
- **Document feeder capacity**: 325 sheets (20 lb.)
- **High capacity feeder capacity**: 725 sheets (20 lb.)
- **Envelope feeder capacity**: 325
- **Folding capacity (one set, single fold)**: Standard (Up to 10 sheets 20 lb.)
- **Automatic double detection**: Standard
- **Accumulate before folding**: Standard
- **High capacity vertical stacker**: Up to 500 envelopes
- **Tip-to-tip sealing**: Standard
- **LAN embedded**: Standard
- **WiFi embedded**: Standard
- **Noise level**: 66 Db

**Fold types**

- Letter, z-fold, single, double, parallel, no fold

- **Document height**: 3.5" - 14"
- **Document width**: 5.1" - 9.1"
- **Envelope length**: 3.5" - 6.35"
- **Envelope width**: 6.3" - 9.7"
- **Maximum insert thickness**: 1 mm
- **Maximum set thickness**: 2.5 mm

**Options**

- **MaxiFeeder capacity**: 1,200 sheets (20 lb.)/325 BRE
- **Side exit**: Up to 400 envelopes
- **Mailing system interface**: Available
- **Barcode Reader (BCR)** for 1D and 2D barcodes: Available
- **Optical Mark Recognition (OMR)**: Available
- **Optical Character Recognition (OCR)**: Available
- **Output Management Software (OMS)**: Available
- **Remote Assistance**: Available
- **Remote Diagnostics**: Available

**System Dimensions**

- **Length x Depth x Height**: 50" × 20" × 29"
- **Weight**: 175 lbs.
